ENVIRONMENTAL POLICY STATEMENT

Jones Waste Services are committed to the ecologically sound and sustainable use of resources and strives to operate in a manner which minimises waste and protects the environment.

Accordingly:

All Jones Waste Services operations are to comply with statutory requirements. Any statutory requirements are minimum standards to be exceeded where management considers it necessary and practical.

Jones Waste Services will regularly monitor its environmental performance and ensure that the support functions exist to effectively maintain and improve environmental standards.

Environmental care is of equal importance to every facet of the company's management and operation.

Jones Waste Services will continue to promote individual commitment to safe and environmentally responsible behaviour through the training, education and information of all staff.

It is recognised that the success of this environmental policy ultimately lies within the commitment and dedication of each and all Jones Waste Services employees. Accordingly, management at all levels is to actively encourage the implementation of these broad principles in their area of business activity and ensure that the Environmental Procedures of Jones Waste Services are observed.
